EDUCATION

University of California, Los Angeles

Sep 2022 - Jun 2026

Bachelor of Science in Statistics and Data Science, Minor in Mathematics | Major GPA: 3.83

Relevant Coursework: Linear Models, Computation & Optimization for Statistics, Statistical Models, Data Mining, Programming with R, Programming with C++, Programming with Python

- Activities: Pi Beta Phi Executive Board, Statistics Club
- Honors & Awards: Dean's Honor List; DataFest Finalist (2025)

EXPERIENCE

Databricks, San Francisco, CA

Jun 2026 - Sep 2026

Partner Sales Intern

- Developing a scalable partner enablement program for top global system integrators to run Databricks executive briefings across India, including demo content, automated feedback pipelines, and an incentive system to drive adoption and measure pipeline impact

Storage Star, San Rafael, CA

Jun 2025 - Aug 2025

Data Analyst Intern

- Analyzed multi-state facility performance during 10-week internship, focusing on rent trends, occupancy trends, and market-level operating patterns
- Built R visualizations and SQL-based reporting workflows to identify performance patterns, support pricing strategy, and present final capstone insights to senior leadership

Pi Beta Phi Sorority, Los Angeles, CA

Oct 2024 - Dec 2025

Vice President of Recruitment

- Led a 4-member recruitment team to organize and execute events for 100+ members, coordinating logistics, schedules, and communication across multiple committees
- Built data-driven tracking tools to monitor member engagement, improve recruitment strategy, and support chapter-wide planning in partnership with UCLA's Office of Fraternity & Sorority Life

Round Hill Country Club, Alamo, CA

Jun 2024 - Sep 2024

Server

- Delivered professional table service in a high-end private country club environment, managing multiple tables while maintaining strong member and guest relationships
- Coordinated with servers, kitchen staff, and managers to improve order accuracy and service flow, earning Employee of the Month twice for professionalism and teamwork

PROJECTS

- **UCLA DataFest 2025 | Data Science Competition Finalist:** Collaborated in a 5-member team to analyze a real-world dataset within 48 hours using R, SQL, and geospatial analysis. Built predictive models and visualizations in tidyverse and ggplot2, earning finalist recognition among 70+ participating teams
- **Storage Star Capstone Project | Data Analyst Internship 2025:** Built interactive Quarto dashboards to evaluate self-storage rent-per-square-foot patterns across California, Texas, Utah, and Colorado, translating rental and occupancy trends into actionable pricing insights

SKILLS

Programming & Data Tools: R, SQL, Python, Microsoft Excel, Microsoft Powerpoint, Quarto

Data Analysis & Visualization: ggplot2, tidyverse, pandas, matplotlib, dplyr, MATLAB

Statistical Techniques: Regression Modeling, Predictive Analytics, Hypothesis Testing, Machine Learning
